

## **STF Consulting Wins 2010 Level Platforms Community Partner of the Year Award**

*The Level Platforms Community Partner of the Year Award recognizes a top Level Platforms Partner for significant contributions to the success of other Partners through collaboration and support.*

**[February, 11 2010] – [Atlantic Highlands, New Jersey]** – STF Consulting, a well-established IT Solution Provider offering exceptional services to small and mid-sized businesses in the tri-state area for over ten years, today announced that it has been recognized by leading remote monitoring and management software provider, Level Platforms, as their Community Partner of the Year. The award recognizes Sean Furman, President of STF Consulting, for his significant contributions to the industry and the partnership, in the areas of business, technology, innovation, collaboration, participation, and general success.

STF Consulting was one of only six award winners announced at the Level Platforms' All Partner Event on February 4, 2010. The Level Platforms Partner Awards include Community Partner of the Year, Comeback of the Year, Innovator of the Year, Rookie of the Year, and Partner of the Year. These awards acknowledge Level Platforms Partners for their success, as well as their commitment and contributions that they have made over the years, both in their partnership with Level Platforms and in the MSP community. A list of nominees and winners can be found in the News section of the Level Platforms website: [www.levelplatforms.com](http://www.levelplatforms.com).

A list of over 3000 Partners was compiled and analyzed by the Level Platforms Executive team. Between four and six Partners were nominated for each of the five award categories, and the winners were chosen based on careful evaluation of the top contenders.

"Much of Level Platforms' success and that of our Partners stems from collaboration—sharing ideas and best practices. STF Consulting not only contributed to the community's success in 2009 while achieving success in their own business, but also made a positive impact on the growth of the industry with their collaborative efforts. For this we thank them, on behalf of our entire partnership base," said Dan Wensley, Vice President Partner Development and Marketing, Level Platforms.

"I believe our enduring success in achieving high customer satisfaction is not only because we leverage great tools to deliver great services, but because our business philosophy strongly values constant refinement and continuous improvement," said Furman. "Collaboration with the Level Platforms team and its community of Partners is a big part of our commitment to that value and we're honored to be recognized for it with this award."

### **About STF Consulting**

For more than 10 years, STF Consulting has provided the highest level of service to its customers who entrust us with over 100 servers and 500 workstations. As we move forward, we continue to

refine our managed services offering by leveraging the best methodologies and tools available. With a fixed cost approach to our customer relationships, we are able to flat line IT related expenses and reduce cost fluctuations associated with typical break/fix relationships. Our mission is to enable our customers to focus on their key business objectives while we manage their IT infrastructure.
